Profile

Software engineer with more than 17 years of professional experience analyzing and developing applications.

I have a full stack profile working with backend and frontend technologies like .Net, Java, SQL, PHP and JavaScript. For the last 10 years, I have specialized in iOS and Android mobile technologies.

My dedication to innovation is reflected in the successful deployment of applications that resonate with global brands, leveraging my proficiency in Kotlin, Swift and cross-platform solutions.

Languages: Spanish: Native, English: Advanced.

Travel documents: Costa Rican Password, US VISA.

Education

Continuous learning	Subscription to Udemy and Kodeco to keep learning about mobile latest trends
2011	Marakana - HTML5 Fast Track Training Course, San Francisco, CA.
2007 to 2008	TEC (Instituto Tecnológico Costa Rica) – English language courses.
2002 to 2005	Universidad de Costa Rica - Bachelors in Enterprise Informatics

Technical Skills Summary

iOS: SwiftUI, Swift, Objective-C, Universal apps, Combine, RxSwift, Localization, Accessibility, tvOS, WatchKit, CocoaPods, GCD, Notifications, Testflight, AppStore, Unit and UI testing, Core Data, Lint, Analytics, Networking, Keychain, Xcode.

Android: Jetpack Compose, Kotlin, Java, Localization, Accessibility, Networking, Material Design, Navigation, Android Studio, Coroutines, Room, Notifications, Unit and UI testing, Analytics.

Others: Design and architectural patterns, OOP, SOLID, Mobile Automation, SDK development, Firebase, SQL, Jira, Gitlab, XML and JSON.

Agile: SCRUM, KANBAN

Professional Experience

January 2017 - to Date @ Gorilla Logic

Senior Full Stack Mobile Developer

- Design and development of mobile applications for iPhone, iPad, iWatch, tvOS, Android Phones and tablets, SDK libraries development and maintenance.
- Experience working as a team leader helping to coordinate and handle the communication between management and the development team.
- Make estimations for new projects, maintenance tasks and perform code reviews.
- Collaborate with the screening interviews for new hires for Android and iOS.
- Make workshops and trainings about mobile (Android and iOS) in order to promote the development skills in the community.

2015 - to 2016 @ Variate Labs - Freelance

Senior Mobile Developer

- Development of the TalkMonster mobile application.
- Lead of the mobile team to work closely with the backend and design teams to define the scope and requirements of the application.
- Strong communication with the team to design and create the architecture of the application.
- Manage the release of apps for testing using TestFlight (development, stage and production).
- Experience working with WebRTC, Push Notification, Voip Notifications (Pushkit), Sockets, Postman and Zeplin.

December 2014 - to December 2016 @ Fiserv

Senior Mobile Developer

- Team lead of the mobile development team, coordinate training and help with the developer of the career path and to solve problems.
- Maintenance and development of mobile applications for iPhone, iPad and Android.
- Make estimations for new projects and maintenance tasks.
- Use and maintenance of Jenkins (continuous integration server) to create and distribute builds for testing.
- Make the release of apps to the Apple Store and Google Play.

July 2012 – to December 2014 @ POP Agency

Mobile Developer

- Design, maintenance and development of mobile applications for iPhone and iPad.
- Make estimations for new projects and maintenance tasks.
- Extensive use of Crucible to make code reviews.
- Administrate the iTunes Connect for the release of new apps and versions to the Apple Store.
- Use and maintenance of Jenkins (continuous integration server), TestFlight and Crashlytics to create and distribute builds for testing.

Jun 2006 – to July 2012 @ avVenta Worldwide

Senior Software Engineer

- Development of mobile applications for iPhone and iPad.
- Design, development and maintenance of web sites using Flash, Flex and ActionScript.
- Make interviews for new candidates and performance reviews for team members.
- Develop and teach training courses like: Introduction to iPhone Development, Learning Action Script 3.0, Advanced Design Patterns with ActionScript 3.0 and Learning Box2D physics engine.
- Develop and maintain applications targeted to the .Net framework 1.1 and 2.0, SQL Server 2000 and 2005. Experience with Transact SQL, SQL Server, Crystal Reports, ASP.NET and Windows based applications.
